## About us

### Mission

To enhance the well being of patients in our service area by assuring a reliable and economical supply of the safest possible blood, by providing innovative hemotherapy services, and by promoting research and education programs in transfusion medicine.

### Vission

To reliably provide trusted blood products and services to all patients at a world class level of cost and quality while innovating new treatment to enhance human healthcare.

### Objective

Blood plasma donations are used for slightly more specific purposes than a general blood donation. The most common uses of plasma donations include individuals who have experienced a severe trauma, burn or shock, adults or children with cancer, and people with liver or clotting factor disorders.

## PLASMA DONATION

Plasma is the clear, straw-colored liquid portion of blood that remains after red blood cells, white blood cells, platelets and other cellular components are removed. It is the single largest component of human blood, comprising about 55 percent, and contains water, salts, enzymes, antibodies and other
